To whom it may concern:

I would like to extend this letter of recommendation to Pattillo Construction. I have recently had the pleasure of working with Pattillo on a green field construction project for our new facility. From architectural services and initial planning, to budgeting, through construction and the final occupancy, Pattillo was very and professional to work with. The project management, with weekly review meetings, was very thorough and detail oriented, helping to keep the project both on track time wise, as well as under budget. The construction crew including all sub-contractors were well chosen for the work, worked safely, efficiently, and maintained a clean construction site.

I would highly recommend Pattillo Construction for any projects, and gladly work with them again in the event that our company continues to grow and needs to expand or build another facility.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Duffy". The signature is fluid and cursive, written over a light background.
