To Whom It May Concern:

Patillo Construction Corporation has done several projects for us here at the Stone Mountain Facility. Everyone at Patillo has been a joy to work with and carries themselves in a very professional way. They have always been very helpful in working out any design and/or constructability issues. Every project that they have done for us has been done in a timely manner and completed to our utmost satisfaction.

We at Graphic Packaging highly recommend Patillo Construction Corporation for any and all your construction needs.

Sincerely,

Bill Wooldridge
