

DAVID BRAZELL | LEED®AP

Director of Field Operations

David Brazell joined Pattillo Construction in 1973 after earning his Bachelor's Degree in Mechanical Engineering from North Carolina State University. For the next 40 plus years, David's role as a Field Superintendent provided him with a unique knowledge of the industrial construction process as he managed and constructed over 100 design-build industrial buildings ranging from 40,000 sf to 1M sf. These projects included manufacturing plants, distribution centers and office build-outs for customers such as Boeing Aerospace, DuPont, Carrier, Snapper, Sweethearts Plastics, Michelin, Tenneco, Solo Cup, Dana Corp., Atlanta Beverage Co., Old Dominion Transport, ITT and countless smaller sized companies.

As Senior Field Superintendent for a self-perform general contractor, David instituted many of the improved processes that became company standards as technologies and industry knowledge changed. This experience coupled with his engineering background, give David a unique ability to analyze each project and determine what approach is appropriate for that particular building.

PROFESSIONAL AFFILIATIONS

USGBC LEED® Accredited Professional

Associated Builders and Contractors of
Georgia (ABC)
