

DAVID TURNER | LEED®AP

Director of Pre Construction

David brings over 27 years of experience in construction management and estimating to Pattillo Construction. His experience also includes construction management for design-build projects.

David is responsible for developing conceptual estimates and managing them through the Guaranteed Maximum Price (GMP) and construction document estimating stages. He is also involved with the buyout of materials in collaboration with the operations personnel. David's strengths are working between both owners and designers in collaborative, team environment and his strongest trait is helping the team understand where their dollars are being spent.
