

# LEON RUSSELL | LEED®AP

Vice President Construction Operations

Leon is responsible for providing leadership and direction to the project teams. He is involved from preconstruction thru close-out and ensures that all contractual commitments are met on all projects. He also is responsible for coordinating the development of the project approach, schedule, budget and quality assurance plans.

Leon's experience includes managing subcontractors, field personnel and internal team members for a variety of construction projects, including new construction and renovations. He serves the project teams to ensure success for the owner, architect, subcontractors and vendors with a focus that all facets of the project team work together to achieve the end goal of a safe and successful project.
